

HEMANT KUMAR JHA

Senior Software Engineer - Frontend | React.js | Next.js | TypeScript

Delhi, India | +91-8700858191 | hemantjhaa97@gmail.com | linkedin.com/in/hemant-jha-frontend-developer

Portfolio: [hemant-jha-portfolio.vercel.app](#)

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 6 years architecting and shipping production React.js and Next.js applications across automotive, healthcare, entertainment, and government platforms. Proven track record improving Core Web Vitals, delivering WCAG 2.1 AA-compliant interfaces, and hardening frontend security (JWT, RBAC, XSS/CSRF). Experienced mentoring engineers, establishing code-quality standards, and using AI-assisted development to accelerate delivery under a strict human-review gate.

CORE SKILLS

Frontend: React.js, Next.js (SSR/ISR), TypeScript, JavaScript (ES6+), HTML5, CSS/SCSS, Tailwind CSS, Material UI

State & Data: Redux Toolkit, TanStack Query, React Hooks, REST APIs, GraphQL

Performance: Core Web Vitals (LCP/INP/CLS), bundle optimization (Webpack, Vite), Lighthouse, Datadog RUM

Quality & Accessibility: Jest, React Testing Library, XSS/CSRF prevention, RBAC, JWT, WCAG 2.1 AA, ARIA, axe DevTools

Tooling & CI/CD: GitHub Actions, AWS (EC2, S3, CloudFront), Docker, Git, ESLint/Prettier/Husky, Figma

AI-Assisted Development: Cursor and Claude (with MCP connectors) for test scaffolding, accessibility audits, and PR reviews; every AI-generated change reviewed for bugs and security issues before merge

WORK EXPERIENCE

Senior Software Engineer, Frontend | Appinventiv, Noida

Sep 2024 - Jul 2026

PROJECT *Sonny's Quivio - Automotive Dealer Platform*

Tech: Next.js (SSR), React.js, TypeScript, Redux Toolkit, TanStack Query, Recharts, PWA/service workers, Webpack, Datadog RUM

- Architected config-driven, multi-tenant Next.js UI serving 10+ dealer partners across CRM, SAT, and white-label modules; built a shared component library of 30+ reusable, documented components.
- Reduced Largest Contentful Paint (LCP) from 3.8s to 2.6s and cut initial JS bundle size by 25% through code-splitting, lazy loading, and asset optimization.
- Delivered the SAT module as an installable PWA with push notifications and offline support; added a Recharts-based analytics dashboard for dealer usage.
- Implemented Datadog RUM monitoring to track real-user performance metrics and catch regressions before they reached production.

PROJECT *Evaria - Healthcare & Wellness Platform*

Tech: React.js, TypeScript, Material UI, SCSS, REST APIs, GraphQL, WebSockets, JWT, axe DevTools

- Engineered WCAG 2.1 AA-compliant patient and admin portals, reducing accessibility defects flagged in QA by 20%; implemented accessible form components, ARIA labels, and keyboard navigation throughout.
- Designed and implemented JWT-based authentication with role-based access control (RBAC) for patient data and admin workflows.
- Integrated GraphQL subscriptions and WebSocket APIs for real-time data updates; managed connection lifecycle and error recovery.
- Deployed a Razorpay payment gateway integration, handling transaction state management and edge-case error handling.

PROJECT *PVR INOX - Entertainment Booking & Payments*

Tech: Next.js, React.js, TypeScript, Redux Toolkit, shadcn/ui, REST APIs, Jest, React Testing Library

- Shipped a multi-step booking and payment checkout flow for one of India's largest cinema chains, with form validation and draft persistence.
- Achieved 90% statement coverage on booking and payment flows with Jest and React Testing Library, reducing regression risk.

Senior Frontend Developer | UV Technologies, Noida

Nov 2022 - Aug 2024

- Engineering Leadership:** Mentored 4 frontend engineers on React best practices, TypeScript patterns, and WCAG accessibility standards; established a code review checklist adopted team-wide.

- **AI-Assisted Development:** Leveraged Claude and Cursor to accelerate feature delivery by approximately 30%, reviewing every AI-generated change for bugs and security issues - race conditions, stale closures, XSS/CSRF - before merge.
- **Accessibility Tooling:** Embedded axe DevTools into the team's development workflow and ran accessibility audits across projects; trained teammates on WCAG 2.1 AA patterns and ARIA usage.
- **API Integration:** Standardized REST/GraphQL/WebSocket integration patterns across projects; designed reusable client-side state management for async data flows and connection resilience.

PROJECT **UPSC Examination Platform - Government**

Tech: Next.js (SSR/ISR), React.js, TypeScript, Material UI, i18n, WCAG 2.1 AA

- Delivered the Next.js SSR portal for a national examination platform, reducing page load time by 20% through server-side rendering, pagination, and caching.
- Developed the multi-step application form with field-level validation, persisted draft state, and secure upload for photographs, signatures, and documents.
- Implemented internationalization (i18n) support for multiple languages and locales; ensured WCAG 2.1 AA compliance throughout.
- **Government Compliance:** Led requirements gathering with government stakeholders; translated compliance and audit requirements into UI specifications, and partnered with QA and backend teams on security review gates.

Software Engineer | Blue9 Technologies, Gurugram

Aug 2020 - Oct 2022

PROJECT **Arab EZ Translator**

Tech: React.js, JavaScript (ES6+), Material UI, REST APIs

- Engineered the core authoring surface for translation workflows - a rich text editor with formatting controls, live word count, and syntax highlighting.
- Developed reusable React components and REST API integrations for content management across multiple locales.
- Converted design mockups into responsive, cross-browser interfaces using Material UI, maintaining WCAG 2.1 AA accessibility.

CERTIFICATIONS & CONTINUOUS LEARNING

Frontend System Design - NamasteDev: high-level and low-level design patterns, REST/GraphQL/gRPC API design, caching and CDN strategies, web performance, security (XSS/CSRF/RBAC), accessibility, offline support, monitoring and logging.

EDUCATION

B.Tech, Electronics & Communication Engineering

APJ Abdul Kalam Technical University, Ghaziabad | 2015 - 2019
